

WATER RESCUE DRY SUIT

MSD576

The MSD576 is the next evolution of Mustang Survival's constant wear dry suit. It is based on the functionality of our legendary Swift Water Rescue Dry Suit and is available in sizes M-XXL. We have updated the design and added several new features to improve the mobility and function specific to water rescue professionals.

Exclusive to Mustang Survival, the MSD576 features Rapid Repair Technology™, which enables users to field replace neck and wrist seals in an hour or less.

GORE-TEX® waterproof and breathable dry suit fabric

Ballistic nylon reinforced neoprene elbow pads

YKK metal entry zipper

Adjustable waist band

TIZIP® relief zipper opening

Rapid Repair Technology™ enables users to field replace wrist seals in an hour or less (trim-to-fit neoprene wrist seal standard)

Ballistic nylon reinforced seat

CORDURA® reinforced overcuffs with Velcro® closures for adjustability

Integrated universal size GORE-TEX® dry socks

Rapid Repair Technology™ enables users to field replace neck and wrist seals in an hour or less (CCS™ adjustable neck seal standard)

Two-point attachment removable suspender system for an improved fit, mobility and comfort

SOLAS retro-reflective tape on the arms for increased visibility

CORDURA® reinforced overcuffs with Velcro® closures for adjustability

Ballistic nylon reinforced neoprene knee pads

For cold water applications, combine with Mustang Survival MSL600 Polartec® liner

| COLORS |  Yellow/Black |
| CUSTOMIZATION | Agency markings and other colors available by special order |
| CLO | Immersed Clo 0.66 when worn with Mustang Survival dry suit liner MSL600 and silk weight thermal underwear |

IMPROVED FIT FOR WATER RESCUE DRY SUIT

The improved fit for the MSD576 reduces cumbersome bulk and provides a fit with greater range of motion and comfort than other station suits on the market. Available in four sizes, please follow the measuring instructions below to determine your optimal fit.

STEP 1

For accurate measurements, please refer to the measurement diagram and instructions provided. All measurements should be taken with a "tailors" (flexible) tape while wearing garments and armour usually worn under the dry suit.

| | DESCRIPTION | MEASUREMENT | PROCEDURE |
|---|-------------|-------------|---|
| 1 | Chest | | Measure the horizontal circumference around the chest at maximum girth. For males, this is typically where the tape runs under the armpits at the scye. For females, this is at the bustline. |
| 2 | Waist | | Measure the horizontal circumference around the waist (belt) line. |
| 3 | Hips | | Measure the horizontal circumference around the hips and buttock at maximum girth. |
| 4 | Sleeve | | With your arms horizontal, bent at the elbows, and with your fists touching knuckle-to-knuckle out from the chest, measure the distance from the center of the back along the outside of the arm to the outer tip of the wrist. |
| 5 | Inseam | | Measure the vertical distance from the crotch to the floor. Use a book pressed firmly up between the legs and measure from the top of the book. |
| 6 | Torso Hoop | | With your shoulders relaxed and the tape running over the center of one shoulder and between the legs, measure the vertical trunk circumference |
| 7 | Height | | Vertical standing height with good posture and no footwear. |

STEP 2

Based on your measurements, determine your size according to the chart below. If all your measurements fall between the ranges of two sequential sizes (such as between S and M) select the size that best fits your Torso Hoop and Inseam.

| DESCRIPTION | M | L | XL | XXL |
|-------------|--------|--------|--------|--------|
| Chest | 39-42" | 43-46" | 45-48" | 49-52" |
| Waist | 34-37" | 37-40" | 41-44" | 46-49" |
| Hips | 39-42" | 41-44" | 43-46" | 47-50" |
| Sleeve | 33-35" | 35-37" | 36-38" | 37-39" |
| Inseam | 32-34" | 34-36" | 34-36" | 34-36" |
| Torso Hoop | 65-68" | 69-72" | 71-74" | 76-79" |
| Height | 68-71" | 71-74" | 73-76" | 75-78" |

CUSTOM FIT OPTION

If you require a custom fit, Mustang Survival offers the MSD624 Sentinel™ Series Water Rescue Dry suit in semi-custom sizes based our Mobility Based Sizing™ platform. This semi-custom fit option is ideal for personal suit issue protocols and offers a near custom suit without the long custom lead time and price tag.
