

SENTINEL™ SERIES

MSD660 – US Navy Aviation rescue Swimmer Dry suit

MSD660 AF – US Air Force Pararescue Dry suit (Non Fire Retardant)

The MSD660 is a specialized dry suit designed for US Navy Aviation Rescue Swimmers and adopted by USAF PJs. The suit is designed to aid in hypothermia protection during surface operations in or on the water when worn with insulating undergarments. The MSD660 is easily donned/doffed by the wearer using a diagonal watertight entry zipper across the torso and wearer’s left shoulder and includes a relief zipper. Customized fit can be achieved through the standard 24 available sizes (including short & tall), adjustable internal suspenders and a waist adjustment system. Every MSD660 produced by Mustang is leak tested to ensure waterproof integrity prior to leaving our factory. All suits are 100% tested to ensure the highest level of reliability and performance.

FEATURES

- MSD660 uses a single layer waterproof, breathable tri-laminate NOMEX® / GORE-TEX® shell fabric (MIL-DTL-32149). This fabric combines waterproofing, breathability and fire retardant characteristics in a single flexible layer.
- MSD660 AF uses military grade, non-fire retardant, waterproof & breathable GORE-TEX BD6.5).
- Rapid Repair Technology™ enables users to self-replace neck and wrist seals and repair small leaks in an hour or less.
- NOMEX® fleece cover over neck seal to protect the user from flash fire damage to the neck seal.*
- Reinforced molded foam knee and elbow pads that provide increased knee and elbow protection and wear resistance.*
- Reinforced seat/thigh area.*
- Low profile, lightweight, and corrosion resistant TIZIP® waterproof zippers that are easier to operate and require less maintenance than typical brass metal teeth zippers.
- Right arm air exhaust valve to vent excess trapped air out of the suit.
- SOLAS retro reflective tape on the upper shoulders and arms for increased visibility.
- Left arm low profile zippered shoulder pocket with dual pen holders.
- 2 x 4 inch Velcro® patch located on right chest for attachment of name tag.
- Left and right thigh elasticized expanding cargo pockets with drainage mesh and Velcro® secured top cover entry, provide maximum storage capacity and exhibit a low-profile function when empty.
- Neoprene cummerbund with waist adjustment tabs allows snug waist adjustability without impeding mobility.
- Low profile adjustable wrist over cuffs.
- Two-point attachment adjustable and removable suspender system for an improved fit, mobility and comfort
- Universally sized waterproof, breathable socks are permanently attached and ankle cuffs reduce entry of small debris into footwear thereby reducing wear on the socks.
- Waterproof entry and relief zippers are covered to provide flame retardancy and help to protect the zipper teeth from damage or contamination.

SIZE	Please see size chart on reverse page
COLORS	 Orange/Black
CLO	Immersed Clo 0.66 when worn with MSL600 and next to skin silk weight thermal underwear

- Mustang offers the following MSD660 replacement components:
- Neck Seals
 - Wrist Seals
 - Socks
 - Dry suit patch kit

*All reinforced areas incorporate drainage to preclude entrapped water.

MOBILITY BASED SIZING™

EXCLUSIVE INNOVATIVE DRY SUIT DESIGN THAT REDUCES BULK WHILE INCREASING FIT, COMFORT & MOBILITY

Based on more than two years of extensive anthropometric research, range of motion testing and user evaluations, we introduce the industry's newest improved fitting platform designed specifically for dry suit users for tactical, rescue or special operations.

Mobility Based Sizing™ offers users a semi-custom suit that reduces bulk and increases range of motion without the expensive custom price tags or long lead times.

The Mobility Based Sizing platform:

- Was developed based on anthropometric data from 2,500 North American 3-D body scans, ensuring the sizing and patterns of the suits fit the greatest number of individuals
- Immensely improves range of motion while decreasing bulk
- Offers standard expanded sizing (such as short and tall) for all sizes so users can order a semi-custom suit without the expensive price or long lead times

The Mobility Based Sizing platform is like none other currently in the industry. To order a suit that fits you best, follow our detailed measuring instructions online at:
